Transitions®

# Adaptive Visor

Motorcyclists know how important a clear vision is. Transitions® adaptive visors seamlessly adjust the darkness levels with the changing light.

I motociclisti sanno quanto è importante una visione chiara. Le visiere adatte Transitions® correggono automaticamente gli sbalzi di luminosità in base alle condizioni ambientali.

## Photochromic technology for a safer, more enjoyable ride.

- Designed to meet the international standards
  - Transitions® Optical has been an industry leader in photochromic technology for 20 years and is known worldwide for its photochromic prescription eyeglasses.
  - UV protection: the visor blocks 100% of UV rays
  - Full activation in 2 minutes
  - Impact resistant
- Photochromic molecules make light, dark, and every shade in between possible
  - When Transitions® lenses are exposed to UV light, the lenses darken.
  - The visor constantly and smoothly recalibrates so the optimal amount of light reaches the eye.

Photochromic performance is influenced by temperature, UV exposure and lens material. Transitions® shields are an optional item and do not come standard with Shoei helmets.

## Tecnologia fotocromatica per una guida più sicura e piacevole.

- Concepito per rispettare gli standard internazionali
  - Transitions® Optical è leader industriale nella tecnologia fotocromatica da 20 anni ed è nota in tutto il mondo per le lenti fotocromatiche correttive.
  - Protezione UV: la visiera blocca il 100% dei raggi UV
  - Attivazione completa in 2 minuti
  - Antiurto
- Le molecole fotocromatiche riescono a gestire luce, oscurità e ogni sfumatura intermedia.
  - Se esposte alla luce UV, le lenti Transitions® si scuriscono. La visiera si ricalibra costantemente e in modo graduale per fare in modo che l'impatto della luce sugli occhi risulti ottimale.

La performance fotocromatica è influenzata dalla temperatura, dall'esposizione ai raggi UV e dal materiale della lente. Le visiere Transitions® sono un articolo opzionale e non sono forniti di serie con i caschi Shoei.
